

C130 Whitepaper

Introduction

It is the era of ICO. Recently, a method of distributing virtual currency by a method called Airdrop began to become popular.

However, in order to do that, you need to prepare your own script.

So, We provide the platform that do Airdrop instead of you.

Member

Kota Ogihara as known as 'yukkuri_sinai', Japanese Programmer. Only me.

C130 is a project I do independently.

but, Please let me know if you want to help me.

Roadmap

2017/10/20

- ICO is start.
